This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

[illegible] the Thirty-sixth [illegible] the registration of [illegible] during the year [illegible].

[illegible]

W. J. Hanna,

Registrar-General of Ontario.

[illegible] the honor to submit for your approval, the Thirty-sixth [illegible] and under the provisions of The [illegible] Marriages and Deaths in the Pro- [illegible] December the thirty-first, 1906.

I have the honor to be,

Sir,

Your obedient servant,

Chas. A. Hodgetts M.D.

Deputy Registrar-General

To Hon. W. J. Hanna,
Registrar-General of Ontario.

Report Upon

Births, Marriages and Deaths

For the Year 1905.

The following report of births, marriages and deaths is for the calendar year ending December 31st, 1905.

The estimated population is 2,208,364 of both sex and of all ages.

From a statistical standpoint the total number of registrations must be looked upon as most satisfactory, they total 103,708. In each of the three classes there has been no abnormal change over 1904.

Births.

The net increase has been greater in the number of births registered during 1905, as compared with the other groups, making the rate per 1,000 of the estimated population, 23.5, as compared with 22.8 for 1904.

The apparent abnormal birth rate in Algoma and Nipissing, is due to the estimated population being much less than the actual number now inhabiting these districts, into which many settlers are going, while the figures clearly indicate the manner in which this new population is conforming to the law of registration.

Marriages.

The marriage rate of 9.2 per thousand is 0.3 per thousand in excess of the previous year.

In considering the statistics in respect to marriages the continued increase in the returns from the County of Essex, is deserving of more than mere passing attention.

As compared with the general returns from the province, it will be seen that of the total increase over the year 1904, six hundred and thirty-seven (637), nearly one-half, or 316 were registered in Essex alone, which is 93 in excess of the return for the County of York, which includes the City of Toronto, for the same period.

It will further be observed that while the provincial marriage rate per thousand of the population is 9.2, that for Essex County is 32.2.

Digitized by Google

An analysis of the County of Essex shows that the marriage returns are classified as follows:—

Sandwich	318
Walkerville	48
Windsor	1,193
Remainder of County	287

of these, the Bride and Groom were classified as follows:—

—	Bride and Groom both Americans.	Bride and Groom both Canadians.	Groom American. Bride Canadian.	Groom Canadian. Bride American.	Total.
Sandwich	266	31	12	9	318
Walkerville	24	18	4	2	48
Windsor	933	178	61	21	1,193
Essex remainder of county	5	273	9	.....	276

A comparison made with Sarnia and Sault Ste. Marie, municipalities also adjacent to the State of Michigan, in the following table:—

—	Bride and Groom American.	Bride and Groom Canadian.	Groom American. Bride Canadian.	Groom Canadian. Bride American.	Total.
Sarnia	56	112	12	10	190
Sault Ste. Marie	15	95	8	.....	118

If the comparison is extended still further to other border municipalities, not, however, contiguous to the State of Michigan, the contrast is more marked.

—	Bride and Groom American.	Bride and Groom Canadian.	Groom American. Bride Canadian.	Groom Canadian. Bride American.	Total.
Brockville	7	103	5	5	120
Prescott	10	32	3	2	47
Rainy River	5	138	1	1	145
Niagara Falls	81	79	6	2	168

The foregoing figures clearly indicate the wholesale manner in which marriages are carried on, particularly at Sandwich and Windsor, and the great preponderance of marriages where both Bride and Groom are both residents of the United States is also most marked, the percentage being in the former, and 78 in the latter of all marriages registered in the native municipalities. Of the American couples married in the latter city, of the males 35, and the females 45, were divorces.

Digitized by Google

A still further evidence of this wholesale traffic is found in the fact that in Sandwich, of the 318 marriages, 297 were performed by the same clergyman, six others dividing up the remaining 21 marriages. Of the witnesses, in the case of the two hundred and ninety-seven marriages, three members of the clergyman's family witnessed as follows:—One 163 times, a second 111 times, and the third, 75.

In Windsor the division of labor was greater, some 29 clergymen registering the total number of 1,193 weddings performed during the year,—one clergyman marrying 365 couples, another 225, three others registering 174, 137 and 106 each, the next in order having officiated at only 54 weddings. In the instance of the 365, a family compact in respect to witnesses apparently existed, the six members appearing as witnesses on 197, 89, 50, 10, 3 and 2 occasions respectively.

The contrast offered by the county of Essex in respect to marriages when compared to the province is still further emphasized when it is seen, while the average rate for Cities is 14.4. Windsor, which is the chief municipality in that county, shows a rate of no less than 91.5 per thousand.

Another practice which is becoming more common, and one to which issuers of marriage licenses should not lend themselves, is the providing of a room upon the premises of the issuer in which the marriage ceremony can be performed; and while there is no statutory provision prohibiting such an accommodation being made by the issuer, yet the very semblance of trafficking in what in this province is looked upon as both a civil and religious right should at all times be avoided.

I am of the opinion the law relating to the Solemnization of Marriage should be amended requiring in the case of both contracting parties being non-residents of the Province of Ontario, that one of the parties should have resided within the county for at least fifteen days, and this should be certified to by an affidavit from the householder in which said party was so domiciled, and on no account should a license be issued without the production of such an affidavit, said affidavit being forwarded to the Registrar-General. And the performance of the marriage ceremony at the office of the issuer should be absolutely prohibited. This would require but little alteration to the law, simply the striking out of the second part of subsec. (*c*) of sec. 17 of the Act respecting the Solemnization of Marriage, and in the second instance a short prohibitory course. In this manner the system of hasty marriages, to call it by a simple name, would be materially improved, certainly at present it is a blot on the good name of the province and a stigma to those trafficking therein.

Deaths.

The death-rate, 14.2, approximated very closely that of 1904; the total number of deaths being only 81 in excess of number registered in that year.

The abnormal death-rate in Nipissing, which shows an increase of 138 registered deaths, is due to the same cause as that mentioned in the reference to births.

See Table No. 1—pp. 20 and 21.

Statistics of Cities.

In "table 2" will be found the returns for the (15) cities of the province, with an estimated population of 515,603 or 23.3 per cent. of the to

population of the province, who may be properly classed as urban. The most gratifying figures in the table are those relating to the number of births, for of the total increase in the province, 1,646, no less than 1,079 happened in the cities, it is only fair to say that some of these births might very rightly be credited to the rural districts, as in many cases the mothers seek the advantages offered by the hospitals as well as the privacy and seclusion of private institutions to be found in the centres of population.

The average death-rate for this "urban" group is 17.4 or 3.2 in excess of the provincial rate—the highest being in the City of Woodstock where the rate is 22.0, and the lowest, Stratford, where it is 12.2—while the rate for the City of Toronto, 17.6 was exceeded by Hamilton, Ottawa, Kingston, St. Catharines, Belleville, Chatham, Woodstock and Peterborough.

See Table No. 2—p. 22.

Statistics of 32 Towns.

In this table will be found two municipalities with a population of over ten thousand, they appear here for the fact of their not having taken out incorporation as cities.

The figures of this group of urban municipalities, of what may be looked upon as the second class, the rate in each of the three classes is in excess of the provincial average, and a comparison with municipalities of the first class, shows that the birth-rate and marriage rate are exceeded, the mortality, however, being lower.

See Table No. 3—p. 23.

Illegitimacy.

From a comparison of the figures as taken from the annual reports for the past seven years, it will be seen that so far as figures relating to this social question can indicate, there has been a steady decrease in the number of children born out of wedlock. In the year 1900, one out of every 55 of the children born during that year was illegitimate. Gradually, year by year, the proportion has been diminishing until, in 1905, only one out of every 74.2 was of that unfortunate class, as will be seen from the following figures:—

Year.	Illegitimate births.	Proportion of illegimates to every 100 children born.
1899	808	1.80
1900	800	1.73
1901	812	1.76
1902	819	1.72
1903	782	1.6
1904	798	1.58
1905	699	1.34

The comparison with other countries is most favorable, for the latest quinquennial periods return the illegitimate births to every 100 children born, being, as follows:—

[illegible]ria	14.55	Sweden	10.80	German Empire	9.21
[illegible]n	8.51	France	8.26	Prussia	7.84
[illegible]	7.35	Scotland	6.33	Italy	6.34
[illegible]	4.04	Ireland	2.65		

Digitized by Google

Multiple Births.

Twins—during the same period, namely, for 1899, the figures have been respectively, 296, 401, 469, 523, 492, 549, and in 1905, 526.

Triplets—in the seven years, 1899-1905 inclusive, 29 births, in which triplets occurred, have been registered.

See Table No. 4—p. 24.

The proportion of male to female births show but an increase over the preceding year, the proportion being 100 female, to 105.9 male.

See Table No. 5—p. 24.

In continuance with former reports, the table of births by months, appears in the report. This table indicates the number of births by months of both the sexes.

See Table No. 6—p. 24.

Marriages by Months and Quarters.

The month of June maintains the lead as the most popular month for marriages, while the last quarter of the year is that in which the greatest number are registered. Those performd by Methodist clergymen represent 31.1 per cent. of the total registrations.

See Tables Nos. 7 and 8—p. 25.

Deaths.

The death rate per thousand in the several counties of the province for the ten years, is set forth in Table 9, as also the average rate for the ten year.

The average rate for Carleton county is the highest for the decade, but it will be seen that the figures for the County of York are only 0.1 less than that of the former county, and while the rate for York, has, during the decade, increased, that for Carleton has shown but little variation.

The tables 10, 11 and 12 permit of a ready comparison of the deaths during 1905, by Classes of Diseases, as happening in the Province, the cities and the towns, as the sex, nativity, social condition, age groups and months—while a still further analysis of the deaths will be found in table 13, where the deaths are given by counties, according to ninety-eight individual diseases, classified in further groups of diseases, and similarly the deaths in the City group, (Table 14), the totals of which are included in the County group, (Table 13), are dealt with by individual diseases. The figures in Table 15, have reference only to the eleven largest towns in the Province.

See Tables Nos. 9-15 inclusive—pp. 26-37.

Deaths by Occupations.

Two additional tables are presented giving the deaths by occupations, by age groups, and sex, so far as it is possible to collate these from the returns. It will be seen that of the total number registered, 31,370, only 19,142 appear in the table; the greater number of the 12,228 unclassified, is mainly composed of married women, infants, and those under 15 years of age, who would not be expected to have an occupation. A similar explanation is offered in respect to the figures in Table 17.

See Tables Nos. 16 and 17—pp. 37-43.

Digitized by Google

Departmental Work and the Collected Records.

Since the inauguration of the collection and elaboration of the births, deaths and marriages in the year 1869, there has been gathered together a most comprehensive register.

Beginning July 1st, 1869, there have been returned to the office of the Registrar-General, by the Division-Registrars of the province, a total of 2,797,108 registrations of either births, marriages or deaths, happening during the thirty-six and one-half years the Act has been in operation. The details of these returns are fully set forth in the following table.

Table Showing Number of Births, Marriages and Deaths in Province of Ontario for Thirty-six Years, 1869-1905 Inclusive.

Year.	Births.	Marriages.	Deaths.	Census population.
1869	8,416 *	2,934 *	2,776 *	
1870	19,536	8,668	6,905	
1871	24,830	9,939	9,182	1,620,851
1872	23,367	10,450	10,745	
1873	27,552	10,998	11,069	
1874	28,273	10,925	10,352	
1875	25,984	10,282	9,532	
1876	38,479	12,550	18,623	
1877	39,957	12,577	20,053	
1878	40,236	12,729	17,808	
1879	41,035	12,509	17,958	
1880	42,312	12,783	19,802	
1881	40,714	13,106	22,821	1,923,228
1882	42,429	13,449	21,800	
1883	42,981	14,277	21,049	
1884	44,504	13,646	21,702	
1885	45,228	13,675	22,105	
1886	46,458	13,845	23,184	
1887	45,904	14,460	23,414	
1888	46,953	14,551	23,734	
1889	48,538	14,880	23,329	
1890	47,773	14,463	24,013	
1891	44,754	14,189	21,558	2,114,321
1892	42,176	14,482	23,120	
1893	42,894	14,475	22,903	
1894	42,051	14,341	22,538	
1895	41,628	13,987	22,461	
1896	46,908	14,904	24,857	
1897	47,323	15,293	27,633	
1898	46,599	15,375	26,370	
1899	44,705	16,514	28,607	
1900	46,127	17,107	29,494

	1,501,299	514,515	781,294	

* 6 Months.

The value of these records cannot be estimated, and only as time goes by will the public appreciate these records, thus safely preserved. It is a work which is unique in the Dominion of Canada, if not upon this conti- nt. It is an instance of the usefulness of centralization, for in no other nner could such records, either be of value to the province or of public

Digitized by Google

As the value of the registrations depends very largely upon their completeness, a comparison of the returns of the census years, beginning with that of 1871, will indicate the improvement in each of the three groups of returns, and the manner in which registrations have been made since 1881 when apparently a normal standard was reached, has apparently kept pace with population increase.

It is not claimed these returns are complete—for in many instances it is found births are not reported, the neglect arising from one of several causes, viz.: (*a*) the physician fails to notify of birth, leaving the responsibility upon the parents; (*b*) the parents fail to register under the false impression, it is the duty of the medical attendant; (*c*) where midwives are employed they often ignore the law; (*d*) many who observe the religious rite of infant baptism labor under the false impression that the clergyman will report to the authorities; and, lastly, (*e*) a small percentage of illegitimates are unregistered.

In the case of the marriages and deaths, the percentage of non-registrations is much less, and any deficiency in respect to the former will be checked by the recently adopted system, whereby clergymen return to the department the endorsed marriage license, or the notification of publication of banns, and the issuer of marriage licenses in a similar manner remits the affidavit, upon which each license is issued. While it is hoped by a closer scrutiny of the cemetery returns, to keep a closer check on unregistered deaths.

In addition to the registrations collected by the department since July 1st, 1869, the marriage registers in the hands of District Registrars previous to the year 1858 have been collected by the department and are now on file; in one instance the marriages date from the year 1816, and although these returns are incomplete, yet their importance and value as years pass by, becomes greatly enhanced. The extent of these marriage returns is shown in the following table:—

Districts.	*Years.*
Bathurst	1831 to 1852
Brock	1839 — 1857
Gore	1843 — 1855
Home	1831 — 1856
Ottawa	1816 — 1853
Simcoe	1842 — 1858
Talbot	1838 — 1868
Hastings County	1839 — 1858
Huron County	1841 — 1848
Middlesex County	1833 — 1855
Northumberland and Durham	1839 — 1858

From 1858-1869, marriage records were kept by County Registrars, these records are now in the vaults of the office and are as follows:—

REGISTRATION OF MARRIAGES BY COUNTIES FROM 1858 TO 1869.

Brant.
Bruce.
Carleton.
Elgin.
Essex.
Frontenac.
Grey.
Haldimand.
Halton.
Hastings.

The character of the work of the department in its tediousness and the close attention to detail required to secure accuracy in the tables, is too often forgotten, and I take this opportunity of testifying to the painstaking work of the Chief Clerk and staff. They have been ever ready to render every assistance, in not only all matters of office routine, but in the compilation of any special tables or reports, and to their ready and willing help this testimony is cheerfully given.

In conclusion, I beg to append for the use of physicians, the classification of causes of deaths (Bertillon Classification), which was adopted as the international system some years ago, and is given for their guidance in making returns of deaths, and it is earnestly hoped the classification will be used by them.

All of which is respectfully submitted.

Chas A Hodgetts

Deputy Registrar-General.

Abridged Classification.	Detailed Classification.
ALL CAUSES (STILL BIRTHS INCLUDED.)	ALL CAUSES (STILL BIRTHS EXCLUDED).
I.—General Diseases.	I.—General Diseases.
(*A. Epidemic Diseases.*)	(*A. Epidemic Diseases.*)
1. Typhoid fever (1).	1. Typhoid fever (abdominal typhus). 2. Exanthematic typhus. 3. Relapsing fever.
2. Malarial fever (4).	4. Intermittent fever & malarial cachexia. *4. Repeated. Malarial cachexia.*
3. Smallpox (5).	5. Smallpox.
4. Measles (6).	6. Measles.
5. Scarlet Fever (7).	7. Scarlet fever.
6. Whooping Cough (8).	8. Whooping cough.
7. Diphtheria and Croup (9).	9. Diphtheria and croup. *9. Repeated. Diphtheria.*
8. Influenza (10).	10. Influenza. 11. Miliary fever. 12. Asiatic cholera. 13. Cholera nostras.
9. Dysentery (14).	14. Dysentery. *14. Repeated. Epidemic dysentery.* 15. Bubonic plague. 16. Yellow fever. 17. Leprosy.
10. Erysipelas (18).	18. Erysipelas.
11. Other epidemic diseases (2, 3, 11, 15, 16, 17, 19).	19. Other epidemic diseases.
(*B. Other general diseases.*)	(*B. Other general diseases.*)
12. Septicæmia (20).	20. Purulent infection and septicæmia. 21. Glanders and farcy. 22. Malignant pustule. 23. Rabies. 24. Actinomycosis, trichinosis, etc. 25. Pellagra.
13. Tuberculosis of lungs (27).	27. Tuberculosis of the lungs.
14. Tuberculosis of larynx (26).	26. Tuberculosis of the larynx.
15. Tuberculous meningitis (28).	28. Tuberculosis of the meninges.
16. Abdominal tuberculosis (29).	29. Abdominal tuberculosis.
17. Pott's Disease (30).	30. Pott's disease.
18. Tuberculous abscess (31).	31. Cold abscess, abscess by congestion.
19. White swelling (32).	32. White swelling.
20. Tuberculosis of other organs (33).	33. Tuberculosis of other organs.
21. General tuberculosis (34).	34. General tuberculosis.
22. Scrofula (35).	35. Scrofula.

FORMS OF THE INTERNATIONAL CLASSIFICATION OF CAUSES OF DEATH.—*Continued.*

Abridged Classification.	Detailed Classification.
23. Venereal diseases (36, 37, 38).	36. Syphilis. 37. Gonnorrhœa (5 years and over). 38. Gonnorrhœa (under 5 years).
24. Cancer of mouth (39).	39. Cancer and other malignant tumors of the buccal cavity.
25. Cancer of stomach and liver (40).	40. Cancer and other malignant tumors of the stomach and liver.
26. Cancer of intestines (41).	41. Cancer and other malignant tumors of the peritoneum, intestines & rectum.
27. Cancer of genital organs (42).	42. Cancer and other malignant tumors of the female genital organs.
28. Cancer of breast (43).	43. Cancer and other malignant tumors of the breast.
29. Cancer of skin (44).	44. Cancer and other malignant tumors of the skin.
30. Cancer of other or unspecified organs (45).	45. Cancer and other malignant tumors of other organs or of organs not specified.
31. Tumors (46).	46. Other tumors (tumors of the female genital organs excepted.
32. Rheumatism (47, 48).	47. Acute articular rheumatism. 48. Chronic rheumatism and gout.
33. Diabetes (50).	49. Scurvy. 50. Diabetes.
	51. Exophthalmic goitre. 52. Addison's disease.
34. Anæmia, leukæmia (53, 54).	53. Leukæmia. 54. Anæmia, chlorosis.
35. Alcoholism (56).	56. Acute and chronic alcoholism.
36. Chronic poisonings (57, 58, 59).	57. Chronic lead poisoning. 58. Other chronic poisonings (occupational). 59. Other chronic poisonings.
37. Other general diseases (21, 22, 23, 24, 25, 49, 51, 52, 55).	55. Other general diseases.
II.—DISEASES OF NERVOUS SYSTEM.	II. DISEASES OF THE NERVOUS SYSTEM AND OF THE ORGANS OF SPECIAL SENSE.
38. Encephalitis (60). 39. Meningitis (61).	60. Encephalitis. 61. Simple meningitis.
	61. Repeated. (*Epidemic cerebro-spinal meningitis*).
40. Locomotor ataxia (62). 41. Other diseases of spinal cord (63). 42. Apoplexy (64).	62. Progressive locomotor ataxia. 63. Other diseases of the spinal cord. 64. Congestion and hemmorrhage of the brain.
43. Softening of brain (65). 44. Paralysis (66). 45. General paralysis of insane (67). 46. Other forms of mental disease (68). 47. Other diseases of brain (74). 48. Epilepsy (69).	65. Softening of the brain. 66. Paralysis without specified cause. 67. General paralysis. 68. Other forms of mental alienation. 69. Epilepsy.
49. Convulsions (70, 71).	70. Convulsions (non-puerperal), 5 years and over). 71. Convulsions (under 5 years).
50. Tetanus (72).	72. Tetanus.
51. Other diseases of the nervous system (73, 74, 75, 76).	73. Chorea. 74. Other diseases of the nervous system. 75. Diseases of the eye and its adnexa. 76. Diseases of the ear.

Abridged Classification.	Detailed Classification.
III.—DISEASES OF CIRCULATORY SYSTEM.	III.—DISEASES OF THE CIRCULATORY SYSTEM.
52. Pericarditis (77),	77. Pericarditis.
53. Endocarditis (78).	78. Acute endocarditis.
54. Heart disease (79).	79. Organic diseases of the heart.
55. Angina pectoris (80).	80. Angina pectoris.
56. Diseases of arteries (81).	81. Diseases of the arteries, atheroma, aneurism, etc.
57. Embolism and thrombosis (82).	82. Embolism and thrombosis.
58. Diseases of veins (83).	83. Diseases of the veins (varices, hemorrhoids, phlebitis, etc.).
59. Diseases of lymphatics (84)	84. Diseases of the lymphatic system (lymphangitis, etc.)
60. Other diseases of circulatory system (85, 86).	85. Hemorrhages. 86. Other diseases of the circulatory system.
IV.—DISEASES OF RESPIRATORY SYSTEM.	IV.—DISEASES OF THE RESPIRATORY SYSTEM.
61. Diseases of larynx (88).	87. Diseases of the nasal fossæ.
62. Diseases of the thyroid body (89).	88. Diseases of the larynx.
63. Acute bronchitis (90).	89. Diseases of the thyroid body.
64. Chronic bronchitis (91).	90. Acute bronchitis.
65. Broncho-pneumonia (92).	91. Chronic bronchitis.
66. Pneumonia (93).	92. Broncho-pneumonia.
67. Pleurisy (94).	93. Pneumonia.
68. Congestion of lungs (95).	94. Pleurisy.
69. Gangrene of lungs (96).	95. Congestion and apoplexy of the lungs.
70. Asthma and emphysema (97-98).	96. Gangrene of the lungs.
71. Hemorrhage of lungs (99).	97. Asthma. 98. Pulmonary emphysæma.
72. Other diseases of respiratory system phthisis excepted (87, 99).	99. Other diseases of the respiratory system (phthisis excepted).
V.—DISEASES OF DIGESTIVE SYSTEM.	V.—DISEASES OF THE DIGESTIVE SYSTEM.
73. Diseases of mouth (100).	100. Diseases of the mouth and its adnexa.
74. Tonsilitis (101)	101. Diseases of the pharynx.
75. Other diseases of pharynx (101, 102).	102. Diseases of the œsophagus.
76. Ulcer of stomach (103).	103. Ulcer of the stomach.
77. Gastritis. 78. Other diseases of the stomach. (104).	104. Other diseases of the stomach (cancer excepted.)
79. Dentition.	
80. Diarrhœa and enteritis (under 2 years) (105).	105. Diarrhœa and enteritis (under 2 years).
	105. Repeated. Chronic diarrhœa and enteritis (under 2 years).
81. Diarrhœa and enteritis (2 years and over) (106).	106. Diarrhœa and enteritis (2 years and over).
	107. Intestinal parasites.
82. Hernia 83. Obstruction of intestines (108).	108. Hernia and intestinal obstructions.
84. Other diseases of intestines (107, 109).	109. Other diseases of the intestines.
85. Acute yellow atrophy of liver (110).	110. Acute yellow atrophy of the liver.
86. Hydatid tumors of liver (111).	111. Hydatid tumors of the liver.
87. Cirrhosis of liver (112).	112. Cirrhosis of the liver.
88. Biliary calculi (113).	113. Biliary calculi.
89. Other diseases of liver (114).	114. Other diseases of the liver.
90. Diseases of spleen (115).	115. Diseases of the spleen.
91. Peritonitis, non-puerperal (116).	116. Simple peritonitis (non-puerperal).

FORMS OF THE INTERNATIONAL CLASSIFICATION OF CAUSES OF DEATH.—*Continued.*

Abridged Classification.	Detailed Classification.
92. Appendicitis (118).	116. Appendicitis and abscess of the iliac fossa.
93. Other diseases of the digestive system (cancer and tuberculosis excepted) (117).	117. Other diseases of the digestive system (cancer and tuberculosis excepted).
VI.—DISEASES OF GENITO-URINARY SYSTEM.	VI.—DISEASES OF THE GENITO-URINARY SYSTEM AND ITS ADNEXA.
94. Acute nephritis (119).	119. Acute nephritis.
95. Bright's disease (120).	120. Bright's disease.
96. Other diseases of kidneys (121).	121. Other diseases of the kidneys and their adnexa.
97. Calculi of urinary tract (122).	122. Calculi of the urinary tract.
98. Diseases of bladder (123).	123. Diseases of the bladder.
	124. Diseases of the urethra, urinary abscess, etc.
	125. Diseases of the prostate.
99. Diseases of male genital organs (non-venereal) (126).	126. Non-venereal diseases of the male genital organs.
	127. Metritis.
	128. Uterine hemorrhage (non-puerperal).
100. Uterine tumor (129).	129. Uterine tumor (non-cancerous).
101. Other diseases of uterus (127, 128, 130).	130. Other diseases of the uterus
102. Ovarian tumor (131).	131. Cysts and other tumors of the ovary.
103. Diseases of the tubes (132).	132. Other diseases of the female genital organs
104. Diseases of female genital organs (non-venereal) (132).	
105. Other diseases of the genito-urinary system (124, 125, 126, 132, 133).	133. Non-puerperal diseases of the breast (cancer excepted).
*VII.—THE PUERPERAL STATE.	VII.—THE PUERPERAL STATE.
	134. Accidents of pregnancy.
	135. Puerperal hemorrhage.
	136. Other accidents of labor.
106. Puerperal septicæmia (137),	137. Puerperal septicæmia.
107. Puerperal convulsions (138).	138. Puerperal albuminuria & convulsions.
	139. Phlegmasia alba dolens (puerperal).
	140. Other puerperal accidents — sudden death.
108. Other causes incident to child-birth (134, 135, 136, 139, 140, 141).	141. Puerperal diseases of the breast.
VIII.—DISEASES OF SKIN.	VIII.—DISEASES OF THE SKIN AND CELLULAR TISSUE.
109. Gangrene (142).	142. Gangrene.
110. Carbuncle (143).	143. Furuncle.
111. Abscess (144).	144. Acute abscess, phlegmon.
112. Other diseases of skin (145).	145. Other diseases of the skin and its adnexa.
IX.—DISEASES OF LOCOMOTOR SYSTEM.	IX.—DISEASES OF THE ORGANS OF LOCOMOTION.
113. Diseases of the bones (146).	146. Nontuberculous diseases of the bones.
114. Diseases of the joints (147).	147. Arthritis and other diseases of the joints (tuberculosis and rheumatism excepted).

*The distinction between puerperal and non-puerperal diseases should be carefully maintained. Whenever the death of a female of child bearing age is reported from any disease which may have been puerperal, the medical attendant should state whether or not it was puerperal.
